It is amazing what $100 can do. $100 can help provide food, clean drinking water and safe passage to school. It can also increase family income, prevent disease and provide warmth in cold weather.

Raising $100 is easier than you think. All you need is an empty 16oz. water bottle and the ChildFund “One Dime at a Time” sticker.

When your water bottle is filled with dimes, you will have about $100. Put one on your kitchen counter or your desk at work, or visit your favorite business and ask them to put your water bottle on the counter for 30 days. (You may want to check back sooner — they can fill up fast!) Once your water bottle is full, please convert your dimes into a check and send it to ChildFund.
